PROFESSIONAL SUMMARY

Passionate Full Stack Developer with 2 years of hands-on experience building scalable web applications and cross-platform mobile apps. Proficient in React JS, Node JS, and React Native, with a strong track record delivering real-world projects from e-commerce platforms to asset management systems. Eager to contribute innovative ideas and technical expertise to a growth-oriented organization.

TECHNICAL SKILLS

Frontend: React JS, React Native, HTML5, CSS3, JavaScript ES6, Bootstrap 5

Backend: Node JS, Express MJS, REST APIs

Databases: MongoDB (Mongoose), MySQL (Sequelize)

Tools & Others: Git, GitHub, Postman, Cloudinary, Multer

WORK EXPERIENCE

Full Stack Developer

November 2025 – Present

Tecxeo Private Limited

- Developing and maintaining full-stack web applications using React JS and Node JS.
- Building RESTful APIs and integrating third-party services for client projects.
- Collaborating in an agile team to deliver product features on schedule.

Full Stack Developer

January 2025 – October 2025

EB Technologies

- Designed and developed responsive web interfaces with React JS and Bootstrap.
- Built and deployed backend services using Node JS, Express, and MongoDB.
- Worked on cross-platform mobile applications using React Native.

Full Stack Developer Trainee

July 2024 – October 2024

Saylani Boot Camp

- Completed an intensive bootcamp covering MERN stack fundamentals.
- Built capstone projects including a Pakistan Location API and book management system.

PROJECTS

E-Commerce Platform — React JS, Node JS, MongoDB, Cloudinary

A fully-featured online store with product listings, shopping cart, secure checkout, and an integrated admin dashboard. Includes image upload via Cloudinary, order management, and JWT-based user authentication.

Admin Panel — React JS, Node JS, MySQL

A dynamic admin portal for managing users, products, and analytics. Features role-based access control, real-time data tables, and a clean dashboard UI for business operations.

Asset Management System — React JS, Node JS, MongoDB

An enterprise-grade system for tracking and managing company assets across departments. Supports asset assignment, lifecycle tracking, maintenance logs, and report generation.

Mom App (Mobile) — *React Native, Node JS*

A cross-platform mobile application designed to support mothers with helpful daily tools, reminders, and community features, built with a clean and user-friendly interface.

Body Shop Buddy (Mobile) — *React Native, Node JS*

A mobile app for body shop businesses to manage customer bookings, job cards, and vehicle service histories, streamlining workshop operations on the go.

Moose Calling App (Mobile) — *React Native*

A hunting companion mobile app featuring moose call audio playback, GPS mapping, and session logging for hunters in the field.

Pakistan Location API — *Node JS, Express, MongoDB*

A public REST API providing structured data for all provinces, cities, and districts of Pakistan. Fully documented with Swagger UI and deployed on Vercel.
